

# Tool Lanyard Technical Datasheet

## Description

The Tool Lanyard is a safety product made from a 1m long tough seat belt webbing material, that can be attached to hand tools to prevent them falling to the ground when working at height.

## Application

The Tool Lanyard is used when working from heights. It is designed to attach easily to tools so that they will not fall to ground if dropped. This simple safety measure minimises the risk of serious injury to those working below.

As the company's products are used in multiple applications and as the company has no control over the method of their use, the company excludes all conditions or warranties, expressed or implied by statute or otherwise. Any technical co-operation is given for customer assistance only and without liability on the part of the company.
